EXPERIENCE

Outlier AI - *Remote - AI Writing Evaluator*   2024 - present
- Passed multiple coding assessments and recognized as a top contributor for programming expertise.
- Evaluated and enhanced the quality of AI-generated content by assessing factuality, completeness, brevity, and grammatical correctness.
- Reviewed and provided feedback on the work of fellow writers, contributing to the continuous improvement of AI-generated writing standards.

Shop Online New York - *Remote - New York - Lead Full Stack Web Developer*   *2023 - 2024*
- Selected as one of 10 out of 100 interns for a full-time position based on performance and contributions.
- Demonstrated proficiency in React.js to implement frontend functionalities, including dynamic user interfaces and responsive designs, optimizing the user experience.
- Regularly submitted comprehensive weekly Pull Requests (PRs) encompassing code enhancements, bug fixes, and feature implementations, accompanied by detailed video tutorials to aid team comprehension.

Danny Z Entertainment - *Chicago, IL - Full Stack Web Developer*   2018 - 2022
- Developed a website that exceeded sales targets by 300% and captivated ticket buyers.
- Collaborating with a team as a mentor for advertising a live show using HTML, CSS, JavaScript, and ReactJS

PROJECTS

Si Beauty Bar, *Full Stack Developer* - ReactJS | NodeJS | Express | Tailwind CSS | SQL | Azure | Docker   [GitHub](#)
- Developed a React-based web application with features such as image carousel, form submission, and responsive design, integrated with Redux for state management.
- Developed a Node.js backend using Express, Azure SQL, and Docker to manage user authentication, including login and account creation, as well as form submissions. Integrated Nodemailer for email functionality and ensured cross-origin compatibility with CORS.

Crypto Page, *Full Stack Developer* - ReactJS | Node | Redux   [GitHub](#)
- Developed responsive frontend components using React.js, including dynamic data fetching from REST APIs and integration of React Router for seamless navigation.
- Applied modern CSS techniques to enhance user interface consistency, accessibility, and responsiveness across React.js components.

Shop Online New York, *Full Stack Developer* - ReactJS | Node   [GitHub](#)
- Spearheaded the development of "Shop Online New York," a robust e-commerce platform akin to Amazon, facilitating seamless buying and selling experiences for users.
- Collaborated closely with React, CSS, and backend teams within a startup environment, ensuring the smooth integration of frontend and backend functionalities to deliver a high-quality user experience.
